This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.

+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.

+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.

+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

BIBLIOTHECA
BODLEIANA

TO THE
READER.

NOT without great Importunity, and that by the beſt of my Friends, have I been prevailed with to commit the following Piece to the Preſs, having at firſt deſigned it only for my own private Uſe; which was found by others to be ſo uſefully expeditious in making up of Accompts betwixt Buyer and Seller, that frequent Sollicitations have been made to me to tranſcribe the ſame upon my own Terms; and have ſo often done it, that Laſſitude has put me upon the expence of expoſing it by a more legible Character; chiefly becauſe I could not anſwer the Demands of ſo many by writing, as affected the Benefit thereof. And that it might in all reſpects anſwer the Ends of my Labour, for the benefit of Strangers as well as others, I have placed the Price diſtinctly over every Column, and ſo fully amplified the Reduction of the Coin of both Kingdoms, that whoſoever is acquainted with the one, has herein a ſet Rule for the other, for which he may (in the height of his Market) be ſecurely guided without

fear of Error: And that time which heretofore ha been loſt by double and doubtful Caſtings, is hereby re deemable in time coming, with ſo much certainty o its infallible Truth, that no Merchant, or other Tra der, need to diſquiet himſelf with the leaſt of Fear about it, provided always he guides his Eye right i finding the true Length, which is here ſo plain an eaſy by Directions prefix'd, that he that runs ma read it. To ſuch as have already had the Experi ence hereof, I need not ſay any thing; yet to th World I may boldly ſay this, it has made the Di quick, the Weak reſolve weighty Queſtions, and th Illiterate run parallel with him of great Learning i managing of his Markets. As I am not ambitious o Applauſe, ſo have I laboured to act above the dread o Cenſure from the capricious Criticks of the Age an Iſle wherein we live; the innocency and honeſty of m Ends, being a ſufficient ſupport againſt all the con tumelious Calumnies and opprobrious Sarcaſms tha Envy can invent, being well aſſured, that Truth an the honeſt Tradeſman will juſtify my Undertaking in the advantagious proof of what I have deliberate ly and cautiouſly penned.

A true Deſcription of the Uſefulneſs of the following Table of Accompts ready caſt up, fitted to all Occaſions in Buying or Selling of any Commodities whatſoever, whether by Number, Weight, or Meaſure, Liquid or Dry.

THE Table is compoſed of *Price*, *Quantity* and *Value*: Each Page being divided into four Parts, two whereof are *Scotiſh*, and two *Sterling*, with their prefixed Denominations at the top of each Part.

The Price is in Scotiſh Money, beginning at one Shilling Scots, and riſing gradually by a Bodle, (which is the ſixth Part of one Penny *Sterling*) till it amounts to one Pound Scots.

Every Part is divided into four ſmall Columns; the firſt Column, in the firſt and third Part of every Page, is the Number, the other three are the Value in Scotiſh Money; the ſecond and fourth part of the Page is the ſame value in Sterling, the firſt, ſecond, and third Columns, containing Pounds, Shillings, and Pence *Sterling*; the fourth is the Place of Bodles, and is marked at the top with *bo*.

Note. That all Numbers from 1 to 28, are to be found in the firſt Column in the left-hand Page, and from 29 to 55 in the third Column. The Numbers follow on in the right-hand Page, as from 56 to 82 in the firſt Column, and from 83 to 1000 in the third Column.

This Table is a neceſſary Companion for all Merchants in Buying or Selling, in either of both Kingdoms of *Scotland* or *England*, and may be applyed to moſt uſes in way of Commerce, in Gain or Loſs.

It reſolves moſt uſual Queſtions in the *Golden Rule*, or *Rule of Three*, and is of conſtant uſe for all Retailers that would keep juſt Accompts, making every Man that knows the value of a Figure, his own Book-keeper.

Firſt find the Price of the Commodity, which is in Scotiſh Money at the top of each Page, then find the Quantity in the Column under *N°*, and the Value follows in Scotiſh Money; and in the *next Part*, directly oppoſite, you have the true Va-

lue in Engliſh Money, being marked above with *Sterling*: I if the Quantity you look for be 110, or 120, you muſt firſt fi the one, and n the other, and by adding them together y have your de without danger of being miſtaken.

As for Example. I deſire to know what 130 Ells of Lin comes to at 17 *s.* 10 *d.* Scotiſh? I look in Page 20[illegible] wher find in the firſt Part the Price prefixed, 30 comes to 26 *l.* 15 and in the third Part of the ſame Page, I find 100 comes 89*l.* 35. [illegible]*d.* which being eaſily added together, comes to 11 18*s.* 4*d.* Scotiſh. And the like uſe is to be made of all oth Parcels which are not comprehended intirely.

Another Example. I deſire to know what 17 Ells of Cloth, 17 *s.* 2 *d.* Scotiſh comes to? I look on Page 196, and under I find 17, and directly oppoſite to the right hand I find [illegible] 1[illegible] *s.* [illegible]0 *d.* Scotiſh, and in the next Part over againſt it, und the Title *Sterling*, I find the Value in Engliſh Money, which ~~16 s. 8 d. or four parts of ſix of a Penny.~~ 1 : 4 : 3 : 5

And likewiſe of all other Queſtions, you have a regular R ſolution readily found out: And for your Information, I wou know what 50 Ells of Cloth at 21 *s.* Scotiſh comes to? I loc in the Table, and find no Price ſo high. For Reſolution wher of, and all other of the like nature, you muſt take half t Price, which is 10 *s.* 6 *d.* and find that as before, which beir doubled, makes 52*l.* 10*s.* Scotiſh, and is in Engliſh 4 *l.* 7 *s.* 6

And that I may yet ſhorten your way, take this followit Direction; If you will ſuppoſe any of the Prices which have t Title of *Scotiſh* at the top to be Engliſh Money, and you wi find it to be according to your deſire exactly right. One thi more I will offer to your Conſideration; At 19 *s.* the Gallo what is a Tun worth, reckoning 252 Gallons to the Tun? find 52 to be worth 49 *l.* 8 *s.* 0 *d.* and the 200 which makes u the Tun, 190 *l.* 0 *s.* 0 *d.* in all 239*l.* 8*s.* 0*d.* Scotiſh; in En liſh 4 *l.* 2 *s.* 4 *d.* and 15 *l.* 16 *s.* 8 *d.* being 19 *l.* 19 *s.* 0 *d.* *Ste ling.* But theſe, inſtead of thouſands of Examples I cou *give*, ſhall ſuffice.

T

lue in Engliſh Money, being marked above with *Sterling:* but if the quantity you look for be 110, or 120, you muſt firſt find the one, and then the other, and by adding them together you have your deſire, without danger of being miſtaken.

As for Example, I deſire to know what 130 Ells of Linen comes to at 17 *s.* 10. *d.* Scotiſh? I look in Page 204, where I find in the firſt part the price prefixed, 30 comes to 26 *l.* 15 *s.* and in the third part of the ſame Page, I find 100 comes to 89 *l.* 5 *s.* 4 *d.* which being eaſily added together, comes to 115 *l.* 18 *s.* 4 *d.* Scotiſh. And the like uſe is to be made of all other parcels which are not comprehended intirely.

Another Example. I deſire to know what 17 Ells of Cloth, at 17 *s.* 2 *d.* Scotiſh comes to? I look on Page 196, and under *N* I find 17. and directly oppoſite to the right hand, I find 14 *l.* 11 *s.* 10 *d.* Scotiſh, and in the next part over againſt it, under the Title *Sterling*, I find the value in Engliſh Money, which is 1 *l.* 4 *s.* 3 *d.* 5 *bo.* Each *bo* being the ſixth part of a penny *ſterling*.

And likewiſe of all other Queſtions, you have a regular Reſolution readily found out: And for your Information, I would know what 50 Ells of Cloth at 21 *s.* Scotiſh comes to? I look in the Table, and find no price ſo high. For Reſolution whereof, and all other of the like nature, you muſt take half the price, which is 10 *s.* 6 *d.* and find that as before, which being doubled, makes 52 *l.* 10 *s.* Scotiſh, and is in Engliſh 4 *l.* 7 *s.* 6 *d.*

And that I may yet ſhorten your way, take this following Direction; If you will ſuppoſe any of the prices which have the Title of *Scotiſh* at the top to be Engliſh Money, and you will find it to be according to your deſire exactly right. One thing more I will offer to your Conſideration; At 19 *s.* the Gallon, what is a Tun worth, reckoning 252 Gallons to the Tun? I find 52 to be worth 49 *l.* 8 *s.* 0 *d.* and the 200 which makes up the Tun, 190 *l.* 0 *s.* 0 *d.* in all 239 *l.* 8 *s.* 0 *d.* Scotiſh; in Engliſh 4 *l.* 2 *s.* 4 *d.* and 15 *l.* 16 *s.* 8 *d.* being 19 *l.* 19 *s.* 0 *d. Sterling*. But theſe, inſtead of thouſands of Examples I could give, ſhall ſuffice.

Price, 2 ſhillings 6 pence.
